#### Bachelor of Technology

2021 – present | Delhi, India

Maharaja Agrasen Institute of Technology

### PROJECTS

---

#### Youtube Clone

- Developed a full-fledged video-sharing platform, akin to YouTube, as a prominent project to showcase my coding expertise in language such as HTML/CSS and JavaScript demonstrating my proficiency in various technical skills and project management
- Implemented responsive design principles, ensuring optimal user experience across various devices and screen sizes, and enhancing accessibility.

HTML CSS

#### Responsive landing webpage

- Developed a dynamic and responsive webpage dedicated to the popular music group BTS, showcasing my proficiency in web design.
- This project highlighted my ability to create an engaging and visually appealing online presence for a specific audience and serves as an informative hub for fans of BTS, providing details about the group's history, members, discography, and achievements. The objective was to create an engaging and user-friendly platform for fans to access relevant information and media content

HTML CSS JavaScript
